

Certified Roofing Professional has joined the Building Envelope Associates Team

Building Envelope Associates, LLC., sales representatives of leading roofing, waterproofing and building product manufacturers, is proud to announce the addition of a certified roofing professional, Ronald Frixione. Ronald is an Authorized CERTA Trainer and OSHA Construction Safety Certified with over 20 years of industry experience. Previously Ronald worked as a certified trainer for a top roofing and waterproofing systems manufacturer. Ronald's skillset will strengthen sales representation in Southeast Florida adding to the team of seasoned roofing specialists including a professional engineer.

Customers will benefit from Ronald's technical acumen from his previous experience as an educator, sales manager and field supervisor. Ronald is fluent in English and Spanish and brings his expertise in code regulations and industry practices governing roofing construction activities.

"Ronald possesses the optimal combination of understanding our customer base with the technical experience to enhance system knowledge through education," said John Massengill, Building Envelope Associates President. "We are thrilled to have Ronald join our team to expand service offerings that improve productivity and efficiency for our customers. Building Envelope Associates continues its commitment to service excellence and our partners by offering a variety of systems to build energy-efficient, sustainable, environmentally smart structures."

"As industry guidelines and codes evolve it is important to understand the appropriate system solutions to meet standards," indicated Ronald Frixione. "I appreciate being part of the education process to promote sustainable building products for longer-lasting, more resilient structures."

About Building Envelope Associates: Building Envelope Associates assists the building owner, architect, consultant, contractor and distributor to select the best solutions to protect the exterior building envelope. The leading manufacturers represented are committed to sustainability. Building Envelope Associates offers the latest product advancements in roofing, waterproofing and building products, including premium quality roofing membranes, coatings, insulations and accessories. These products meet and exceed industry standards, are engineered to perform longer, increase efficiency, extend life cycle, reduce waste and minimize environmental impact.
